

Puppets on Stage

Pick a book to read. After reading the book, you are to create a script summarizing your book or chapter. Submit this to your publisher (me!) for review before beginning your puppet creations. Once your script is approved, create your puppets. When you are ready for your big performance, present the play to the class for the full 20 points!

I Wonder What the Author Wrote..

Choose a book jacket from the basket. Create a story to go with the book jacket. Remember, the author spent lots of time creating his or her story – you should plan yours as well!

All good stories have a strong beginning, middle, and end. The characters have voice and are full of energy. Strong writers show this energy by using strong verbs.

Have fun and create a fabulous story! When you are finished, make sure you edit your story for spelling, punctuation, and content.

Poetry

Use the poetry book in the folder to:

- 1. Practice a poem until you have achieved fluency with expression.**
- 2. Record the poem on the tape in the folder.**
- 3. Listen to the tape and enjoy your reading of the poem.**
