

Make Some Noise!

Use the ruler and rubber band in the folder to create an instrument that vibrates.

Describe the definition of a vibration and the causes for it in your Science Journal.

Natural Reporting

- You are a world famous reporter with an incredibly difficult assignment. You must travel through time to interview species that may have been present to witness the development of the following natural resources:

- Coal
- Oil
- Gas
- Minerals

What questions would you ask?
Make a list in your science journal.

Nature or Nurture

Pick a card from the folder.
Use the form in the folder to describe specific traits of this specimen that would be the result of **nature**. Now, describe specific traits of this specimen that would be the results of **nurture**.

SAMPLE

Recycle, Recycle, Recycle!!

Everyday there are opportunities to recycle. Describe how your family recycles everyday. If your family does not recycle, what steps can you take to convince them to begin a recycling program? Record your thoughts in your science notebook.
